

F3 SOLUTIONS BY ROLE – PROJECT MANAGER

DERIVATIVES SOLUTIONS FOR PROJECT MANAGERS

You are responsible for managing key projects within your organization, with the success or failure resting on your shoulders. You control and monitor the scope, budget and schedule for projects, minimizing risks and balancing resources along the way.

Find out how F3 can help deliver your derivative analytics project on-time and within budget.

ENSURE YOUR PROJECT STAYS ON TRACK

- ◆ Know all of your costs upfront without any risk of surprises down the road.
- ◆ Straightforward implementation gets you up and running in days, not months.
- ◆ Expert training and ongoing customer support helps you quickly resolve any issues that arise.

OPTIMIZE RESOURCES

- ◆ F3's flexible architecture separates the financial engineering from software engineering allowing you to better manage your quant and developer resources along two separate tracks.
- ◆ Fast track the building of your portfolio with the ability to use any combination of model, trade and calculation method over and over again without having to start from scratch.
- ◆ Deliver high performance with F3's ability to distribute calculations. Grid-enabled, multi-threaded and multi-core compliance gives you several built-in options to expand your production level.

See how F3 can help your project and your organization find success now and in the future.
